

# THE unique Advantages OF KINDERBERRY HILL

As the Twin Cities' premier child development experts for almost 30 years, Kinderberry Hill has a proven reputation for providing the finest learning experience available for Minnesota's youngest learners.

We recognize our tuition fees are at a premium and we welcome the opportunity to show you in person our exceptional programs and explain why. The most unique advantages cannot be listed on this page. It's about... the Kinderberry Hill experience and belonging to the Kinderberry Hill community, which

is second to none. It's about... the sense of comfort and security you feel when your child is warmly greeted each morning by teachers and friends, and the pride you feel in your child's daily progress and accomplishments. It's about... the peace-of-mind you feel every day knowing that you made the right choice for your family. When families visit us for the first time, they comment on how the look and feel of our school is unlike any other early childhood program they have seen. The only way to fully appreciate the advantages of Kinderberry Hill is to come see for yourself.

## ALL-INCLUSIVE TUITION

We know families with young children are very busy. After all, we have families too! Our all-inclusive tuition provides benefits that will save you valuable time each day. Base tuition includes:

- Base tuition includes all learning materials for the age program.
- Infant care items, including bottles, formula, bibs, sleep sacks, crib linens, and organic baby food.
- Personal care items, including wipes, diapers, pull-ups, sunscreen, toothpaste, and tooth brushes.
- Nutritious meals and healthy snacks.
- Enrichment programs (see back-side).
- Support services, including individualized care by our school nurse.
- Biannual comprehensive child progress assessment conferences, including kindergarten readiness and executive function (skills for life).
- An array of family amenities including sibling and school-wide celebrations.
- Daily updates and photos of your child's activities, naps, meals, and milestones.

## A CARING COMMUNITY

When you choose us, you are choosing a community of care for your entire family. We truly value the partnership between home and school. We cherish the successes of our youngest learners, just as we do our alumni who continue to make us proud long after they have graduated from Kinderberry Hill.

Throughout your family's time with us, we host numerous family-friendly events and celebrations. We express our appreciation through tuition credits for referrals, family conveniences, and family gifts lovingly crafted by your children!

## SCHEDULING OPTIONS

Kinderberry Hill is one of the only child development programs to offer a select number of part-time and flexible scheduling options to accommodate today's working families. Availability is based on classroom capacity and program occupancy.

## ONSITE SCHOOL NURSE

Our nurse leads our health and wellness efforts, monitors food allergies, dietary restrictions, and health conditions, and fosters a clean school environment. From charting medications, providing first aid, and conducting health lessons for children, parents of newborns through pre-kindergarteners receive peace-of-mind, guidance, and resources to support children's growth at each stage of development.

## ENRICHMENT PROGRAMS

Our comprehensive early education curriculum is enhanced with proprietary enrichment programs taught by field experts in our schools.

**Music:** Provides children with opportunities to play instruments, gain an understanding of rhythm and movement, sing, dance, listen, and explore the cultural aspect of music. All children attend class twice a week.

**Spanish:** Introduces children to a second language using creative lessons to stimulate understanding and learning through play-like activities. All children attend class twice a week.

**Fit Kids:** Full body movement and engaging activities and lessons with a focus on mindfulness and the development of healthy habits, bodies, and minds. Walkers through pre-kindergarten attend class weekly.

**Curious Minds:** Provides hands-on learning experiences and experiments to encourage early science, technology, engineering, and math (STEM) exploration. Toddlers through pre-kindergarten attend class monthly.

**Our families help make us who we are. It is a privilege to play such an important role in a child's development. We welcome the opportunity to share your child's experiences during their earliest years.**
